The Butt Printing Pallet will allow you to print across the entire backside or front side of single ply gym shorts. It is designed for use with elastic waistbands. A waistband easement on the rear of the pallet allows for accurate loading and printing right onto the waistband.

The Butt Pallet will allow you to print across the entire backside of **elastic waistband, single ply gym shorts**. Specially designed for use with elastic waistbands. A Waistband Easement on the rear of the pallet allows for accurate loading and printing right onto the waistband.

The Waistband is stretched for loading and positioned appropriately in the easement. An additional easement for the butt seam allows you to print over the waistband and the seam. Special shaping optimizes loading and image capacity in this size sensitive pallet.
