

MHM Style Squeegees & Floodbars

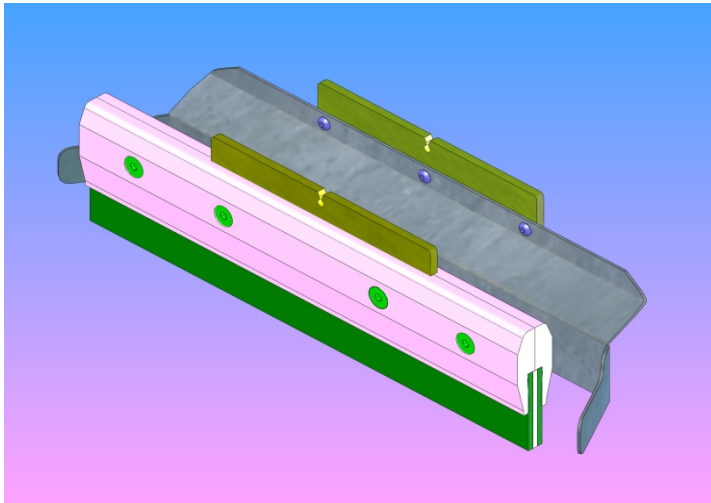

Purpose & Features

Winged Floodbars virtually eliminate all of the attention & time required to scrape ink from the side of the frame back into the inkwell. The Laser Cut, Stainless Steel Attachment scoops and directs the trail that's left by the squeegee pass. Every time that your frame is flooded, the wings are working to control the ink.

We cut & install the squeegee rubber of your choosing & even shave and smooth sand the edges after the rubber is put in. High quality standard single durometers and 70/90/70 triple durometer are in stock.

Winged Floodbars & EZ Clean Squeegees

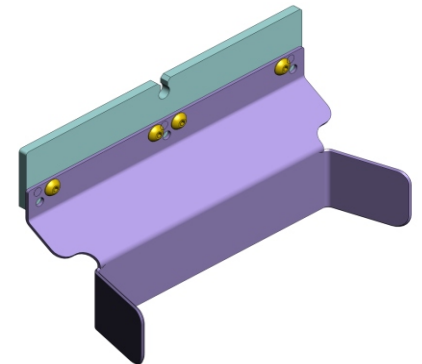

EZ-Clean Squeegees - 2 Piece - No protruding screw heads or nuts to snag your rag during cleanup. This expertly designed extrusion envelopes the rubber completely with no

We cut & install the squeegee rubber of your choosing & even shave and smooth sand the edges after the rubber is put in. High quality standard single durometers and 70/90/70 triple durometer are in stock.
